

School Vision - Manly Vale Public School is dedicated to supporting the development of every student through innovative practice ensuring all students connect, succeed and thrive to become responsible global citizens.

MVPS is dedicated to supporting the social, emotional and academic well-being of every student, through innovative and collaborative practices that ensure all students connect, succeed and thrive to become responsible community members and global citizens.

Our commitment and ability to maintain our “Caring and Sharing” vision is supported by a strong school leadership team, dedicated teachers who embed evidence-based practices, and a connected community who value the importance of all aspects of the educational curriculum to support the intellectual, physical, social and emotional development in their children.

Students are at the forefront of all decision making and parents are partners in the learning process. Flexible team-teaching that embeds the use of technology, provides support for students to achieve their educational goals in future- focussed classrooms.
